THE NEW ATLANTIC CABLE.

Progress of the Work.—The Manufacture of the Now (able.—The Recent Bounding Along the Proposed Houte From the Landon Times, Oct. 13

From the London Times, Oct. 13
The manufacture of the new Atlantic telegraph, which is to be submerged between Breat and a suitable terminus on the shores of the State of New York, is progressing astisfactorily. The new cable is atmost identical in construction with those which were completed in 1864, the only difference being that the diameter of the conducting copper core is slightly greater, and the outside wires are of homogeneous Beasemer issued a salvanized harding a breaking airpain of Pierre, in deep eas, of 3,335 miles, not including slack, and the other from St Pierre to the term slack, and the other from St Pierre to the term one of '22 miles in length, not including slack. The latter section will be similar to the Persian Guif cubic, as it will have to be laid in comparatively shallow water, and its exterior wires will be protected with Bright and Clark's patent sinceous compound, which consists principally of powdered fint and putch The construction of the shore ends will be aministrate that of the extenting Atlantic lines, and will gradually become thinour until they assume the deep sea dimensions. During the animar Har Stajasty's ship Gannet took soundings along the proposed route, and from the results of the openitions it is understood that the bottom of theorem is nearly the same in character as the bed in which the existing cubies are lead, and of about the axinc depth. Little but mud and our were found along the route. In order to word the dangers of injury from rocks and inchergs, the new line will be laid to the south of they is controlled, below the southern edge of the Great Bank, so that it may be laid in deep water. Sin James A derson, who will command the Gr it Fistern during the expedition organized for the summerters of the blue, has banded the following.

Bank, no thich i may be laid in obep water. Sin James Anderson who will command the fract is taken derson who will command the fract submengence of the line, has made the following loss ratios a regarding the Newfound and Banks. By keeping in the 100 fithout line upon the white Bank, and around the southern edge of the frant? Bank, there is no passibility of ice or any other active jith can be suggested injuring the cable. The southern edge of the Grand? Bank was actived the close to it is innertion at, what dorth the incherge ground. They are said, upon most authority, to ground at times in ninely follows. It is not certain at what depth the incherge ground. They are said, upon most authority, to ground at times in ninely follows. It is not certain at what depth the vessels employed in the seal trade may suctimes choose to drop an anchor for the purpose of keeping in the track of lee flows any exact around all the track chosen for the incompassed cables, and I am justified by my own interiors are avoided by the track chosen for the incompassing that the track from the sumericalge of the Grand Bank to 8t Pierre, and that a complete from any danger from incom does not cross the incompassing the state of the flow any time from incompassing the incompassing at the enderson and ball in the effect of the conductor of the existing Atlantic cables is 300 process when the end of next Jone. At it is a the or at Jone at the conductor of the existing Atlantic cables is 300 process. \$1,000 to \$4,000

BODILY REPAIRS. testering Facial Detects—How a Lost Since may be Repiaced—Harelips, Hotes in Checks, etc. From the Orice a Work

A man, now and then, has the mistortune to task his nose. What would be the greatest con-que nor that ever lived without his manal appen-digs? Many a man would as soon loss his life quero thet ever lived without his mout appending? A may a man would as soon look his life is his now, hence the skill that he exerted to supply its place when look Of old, the organ we model do as fer as possible in the form of the old member, and then the permanent structure we so bit; do not of betten silver, which was entimeted so as to match this complexion. The metal probovers was commonly secured to the live by memo of a jury of spectacles which skill in the history of mucture. Here was one deviative in this artificial mose, it needed no plocket hemitischicht, but then it suffered the drawback of pussessing no power of smell. But, by or one so the rhino plastic operation, the skilled surgion has, of late jury, taken all regular of the face out of the hinds of the orthopretic artist. The surgeon calls in dame nature to his and at once. Having in idea of figure in wish is that of the number of skin required to form the low man are, he marks the triangular on line upon the jutical's forch ad, with the composition of the number of skin required to the number of since of the surgeon calls in dame nature of min the first match the triangular on line upon the jutical's forch ad, with the composition of the number of skin required to the number of since the standard of the control of the number of the surgeon calls in the triangular on line upon the jutical's forch ad, with the composition of the number of the surgeon calls in the surge

a your wite's morals, nor read lectures to her out off ctionately. Let your preaching be a conveying, and practice virtue yourself in

at with it.

4. Command her attention by being always attent to to her, never exact anything from her that you would not be willing that also should require four you, appear always faltered by the little she does for you, which will excite her to heat off it. and office. All women are more or less value, in some

hand on to have more or less vain, is some their vanity is insufficiable. Never wound their vanity is insufficiable. Never wound their vanity, incl. avoid in the most trifling lessance. A historical may have more sense than his wife, but he should never seem to show it.

6. When a woman gives wrong counsel never make her feel that she has done so, but lead her on by agrees to what is realional, with mildrens and gentleness; when she is convinced, leave her and graticases; when she is convinced, buye her all the merit of having found out what is just and encounted.

TITUSVILLE, PA., WEDNESDAY, NOVEMBER 4.

7. When a wife is out of temper behave obligingly to her; if she is outkind, never recort or find fault with her, with a view to humble her.

8. Choose well your male friends; have advice in all matters, particularly if infusical to the foregoing instructions. Choose but lew, and be cautions of following their advice.

9. Cherish nestances without juxury, and pleasure without excess; dross with taste, and particularly faith coolesty. Such things may appear irifling, but they are of more importance than imagined.

10. Never be curious unnecessarily to pry into your wife's affaire, but obtain her confidence by that which, at all times, you repose in her. Always preserve order and economy; avoid being out of a mper, and be careful news to scold. By this means she will find her own house taore pleasant than any other.

this means sae will find her own house more pleasast than any other.

11. Seem always to obtain information from her, especially hefore compaty, though you may pass yourself for a simpleton. Never forget that a husband owes his importance to that of his wife, if he digrades her he injures himself.— Leave her source mistress of her own actions, to

The Robel Account.

The Robel Account.

SALANAH tia, Nov ?

The negroes appeared in great nature as when the polls opened this morning and took entire possession of the polling places. This continued till about? o clock, and every white man who came to vote was clabbed away. Finally a fight commenced, and the negroes were driven back by the whites who then commenced to vote. In a few minutes the negroes relied and attacked the whites. A negroe deliberately draw a revolver and shot a policensan in the stomach, mor taily wounding him, and the firing then became general in the crowd. The pollee came to preserve arre order, and the negroes fought them deaperately, but finally the police need pations, when the negroes broke and ran. Five negroes were killed and several wounded, and four police men were wounded, one mortally A young lady residing is a house opposite the court house was also shot by a ball which came through the window, but not dangerously hurt. Frouble is anticipated to night. Election Disturbance.

Agreed Mortionemen, Ale, Nov 3

Test':nonial of Hon. John Covode, Member of Congress. WASHINGTON, D. C., June 12, 1868.

For more than a year I suffered inconvenience from a constant sounding in my left ear. On the 21st of May I applied for relief to Dr. Aborn, at 134 Smithfield Ir you want a genuine Havana Cigar go to Street Schurgh. He relieved me at once, and from that day to this I have had no difficulty of any kind with my hearing

JOHN COVODE.

Catarrh Cured.

Testimonial from Hon. M. C. Beebe, of Pleasantville, Pa-Late Member of the House of Representatives.

Dr. Aborn, No. 134 Smithfield Street, Pittsburgh, Pa.—Dear Sw :-- Some five years ago my son Willie commenced showing symptoms of Catarrh of the Head, which continued to grow worse until his system was so debilitated as to preclude an active enjoyment of the sports of childhood or pursue any system of study, or attend at school, and at times was entirely prostrated with lingering fever-somedisease, such as a constant backing, nostril discharges. &c., irritation of the throat. &c., causing nauses. All the usual appliances and treatment of physicians, &c. had failed to afford rollef, until you were applied to during your professional visit at Titusville last winter, when he began to improve immediately after commencing your treatment, and continued to improve until now be enjoys a good state of health, and is able to participate in the active sports of childhood with sest, as well as pursue his studies without interruption. I have omraitted to make this statement heretofore, as I wished to be satisfied that the relief was permanent.

Pleasantville, Pa., Oct. 24, 1867.

The New Theory for Diseases of the Air-Passages. A WORD FROM AN OLD SCHOOL PRESSCRAW AS TO THE MERITS.

There are many systems of medicine by which we attempt to heal the human

body and make it free of disease, ranging from the science of Allopathy down to that of Hydropathy. How far they have succeeded time has abundantly shown by the numbers of their failures, as well as by the number and resture of their In the cure of pulmonary disease, Dr. Aborn has stepped out of the old besten

track, and adopted a system so simple, direct and natural, as to recommend itself to all who are suffering from extern and disease of the lungs, of a character defying cure by any of the old methods of treatment. Although from childho al I have been raised, and also went through a regular

course and graduated as an Allopathist, yet a strict love of what is right and best, as well as personal benefit received by the new system of atomization, teaches me to bear some testimony to its merits for the benefit of suffering A. PALCOMER, M. D., Practical Apothecary, Lawrenceville, Pa.
